SUMMARY

Full-Stack Developer with 4 years of experience building scalable web applications using Angular, Node.js, and TypeScript. Recently specialized in AI technologies including LLMs, RAG, LangChain, and vector databases. Proven ability to deliver high-impact solutions across frontend, backend, and database management in collaborative environments.

SKILLS

- **Languages & Core:** JavaScript, TypeScript, Python, HTML5, CSS3
 - **Frontend:** Angular, React, Vue.js, Tailwind CSS, Sass, Bootstrap
 - **Backend:** Node.js, Express.js, FastAPI, RESTful APIs
 - **AI & ML:** LangChain, OpenAI API, RAG, Vector Databases, LangGraph
 - **Database:** PostgreSQL, MongoDB, Cloud Firestore, Pinecone
 - **Authentication:** OAuth 2.0, JWT, Firebase Auth
 - **Cloud & DevOps:** Docker, Git, CI/CD Pipelines, Firebase, Vercel, Railway
 - **Tools:** Figma, Postman, Insomnia, Bruno, Stripe API
-

EXPERIENCE

Software Engineer | Tupungato Wine Co. | Napa, California | May 2024 – Present

- Developed full-stack platform with Angular, Node.js/Express, and Firestore featuring member portal and admin dashboard with Stripe integration for premium wine clientele
- Designed complete UI/UX and architected database collections for efficient customer segmentation and personalized marketing
- Deployed backend to Vercel with CI/CD via GitHub and managed frontend deployments to Firebase

Software Engineer | AgroFull | CABA, Argentina | March 2022 – March 2024

- Led frontend redesign of agricultural platform using Vue.js and Bootstrap, creating Figma prototypes that resolved communication gaps between client and development team
- Transformed legacy desktop UI into mobile-first responsive design for field-based users
- Coordinated external designer and backend team to ensure cohesive implementation

Software Engineer | Victor Iermito Luthier | Paris, France | April 2021 – December 2021

- Built QR-based guitar catalog with Angular, TypeScript, and Firebase, enabling client to independently manage inventory via self-service CRUD interface
 - Optimized application for low-connectivity showroom environments with custom loading states and data caching
-

CERTIFICATIONS
